Abstracts

Baby diapers are one of the most consumed baby care products in the world. They come with options: cloth diapers which are composed of layers of fabric or disposable diapers which contain absorbent chemicals. Today's disposable diapers are light, compact, very absorbent, prevents leaks and easy to use. Disposable diapers decrease the incidence of probable sepsis in babies admitted to a level II NICU with a high incidence of nosocomial sepsis. They are cost-effective in prevention of neonatal sepsis. A study by StrategyHelix indicates that the baby diapers market in Paraguay is projected to expand by a CAGR of 7.9% from 2022 through 2028.

The report provides up-to-date market size data for period 2018-2021 and forecast to 2028 covering key market aspects like sales value and volume for baby diapers. The Paraguay baby diapers market is segmented on the basis of product, and retail channel. Based on product, the baby diapers market in Paraguay is categorized into nappies, nappy pants. On the basis of retail channel, the baby diapers market in Paraguay has been segmented into supermarkets and hypermarkets, grocery stores, specialty stores, others.
