## Abstracts

Baby diapers are one of the most consumed baby care products in the world. They come with options: cloth diapers which are composed of layers of fabric or disposable diapers which contain absorbent chemicals. Today's disposable diapers are light, compact, very absorbent, prevents leaks and easy to use. Disposable diapers decrease the incidence of probable sepsis in babies admitted to a level II NICU with a high incidence of nosocomial sepsis. They are cost-effective in prevention of neonatal sepsis.
