Abstracts

An antiperspirant is a chemical agent that reduces perspiration or sweating. Deodorants typically include antiseptic ingredients that repel the bacteria that cause odor, and may contain an additional fragrance. A study by StrategyHelix indicates that the deodorants market in USA is expected to increase by US\$ 1,295 million from 2021 to 2027, garnering a CAGR of 3.2% during the forecast period. The increasing demand for personal grooming products, along with the rise in female workforce participation, rising demand for novel and innovative scented products among millennials, increasing awareness regarding the benefits of maintaining personal hygiene are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for deodorants. The USA deodorants market is segmented on the basis of price range, product, and distribution channel. Based on price range, the deodorants market in USA is categorized into prestige product, mass product. The mass product segment captured the largest share of the market in 2020. On the basis of product, the deodorants market in USA has been segmented into aerosols and sprays, creams and gels, pumps, roll-ons, sticks. The aerosols and sprays segment held the largest share of the USA deodorants market in 2020 and is anticipated to hold its share during the forecast period. By distribution channel, the deodorants market in USA has been segmented into supermarkets & hypermarkets, specialty stores, online retailing, others.

Some of the leading companies operating in the market are Unilever PLC, The Procter & Gamble Company (P&G), Bath & Body Works Inc. (L Brands Inc.), Colgate-Palmolive Company, Henkel AG & Co. KGaA.
