Abstracts

Depilation, also known as hair removal or epilation, is the deliberate removal of body hair or head hair. Depilatory methods include shaving, bleaching, plucking, waxing, use of chemical depilatories, and electrolysis. The depilatory products market in Morocco is expected to increase at a CAGR of 4.8% till 2027, according to data and analytics company StrategyHelix. Rising consumer disposable income and living standards coupled with increasing urbanization, rising consciousness with respect to personal grooming and enhancing aesthetic appeal are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for depilatory products. The Morocco depilatory products market is segmented on the basis of product, and distribution channel. By product, the depilatory products market in Morocco has been segmented into hair removal & bleaching creams, pre-shave oils & lotions, electronic devices. According to the research, the electronic devices segment had the largest share in the depilatory products market in Morocco. Based upon distribution channel, the depilatory products market in Morocco is categorized into supermarkets & hypermarkets, specialty stores, online retailing, others.

The prominent players operating in the Morocco depilatory products market include Reckitt Benckiser Group plc (RB), Societe BIC S.A., The Procter & Gamble Company, Laboratoires Biotol Cosmetics, Oriflame Cosmetics S.A., Church & Dwight Co. Inc.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the depilatory products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
