## Abstracts

Depilation, also known as hair removal or epilation, is the deliberate removal of body hair or head hair. Depilatory methods include shaving, bleaching, plucking, waxing, use of chemical depilatories, and electrolysis. A study by StrategyHelix indicates that the depilatory products market in Tunisia is anticipated to expand positively at a CAGR of 10.9% during the forecast period (2021-2027). Rising consumer disposable income and living standards coupled with increasing urbanization, rising consciousness with respect to personal grooming and enhancing aesthetic appeal are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for depilatory products. The Tunisia depilatory products market is segmented on the basis of product, and distribution channel. Based on product, the depilatory products market in Tunisia is categorized into hair removal & bleaching creams, pre-shave oils & lotions, electronic devices. The electronic devices segment captured the largest share of the market in 2020. On the basis of distribution channel, the depilatory products market in Tunisia has been segmented into supermarkets & hypermarkets, specialty stores, online retailing, others.

Top players covered in Tunisia Depilatory Products Market Study are Laboratoires NIHEL, Phytopharma Tunisie, Reckitt Benckiser Group plc (RB), Laboratorios Byly S.A., Oriflame Cosmetics S.A.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the depilatory products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
