## Abstracts

Depilation, also known as hair removal or epilation, is the deliberate removal of body hair or head hair. Depilatory methods include shaving, bleaching, plucking, waxing, use of chemical depilatories, and electrolysis. According to a report by StrategyHelix, the depilatory products market in Uganda is set to grow at a healthy compound annual growth rate (CAGR) of 7.5% in the next five years. Rising consumer disposable income and living standards coupled with increasing urbanization, rising consciousness with respect to personal grooming and enhancing aesthetic appeal are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for depilatory products. The Uganda depilatory products market is segmented on the basis of product, and distribution channel. On the basis of product, the depilatory products market in Uganda has been segmented into hair removal & bleaching creams, pre-shave oils & lotions, electronic devices. The electronic devices segment is estimated to account for the largest share of the depilatory products market in Uganda. By distribution channel, the depilatory products market in Uganda has been segmented into supermarkets & hypermarkets, specialty stores, online retailing, others.

The depilatory products market is dominated by key players, which are The Procter & Gamble Company, Super-Max group, Societe BIC S.A., Trend International Pvt. Ltd.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the depilatory products market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
