## Abstracts

Energy drinks are widely promoted as products that increase energy and enhance mental alertness and physical performance. These drinks contain high levels of a stimulant ingredient, usually caffeine, as well as sugar and often supplements, such as vitamins or carnitine. The energy drinks market in Australia is poised to grow by US\$ 1,022 million during 2021-2027, progressing at a CAGR of 8% during the forecast period, according to data and analytics company StrategyHelix. Increasing popularity of various product offerings, growing consumer inclination toward reduced sugar & sugar-free beverages, increased promotional and advertisement strategies by the manufacturers are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for energy drinks. The Australia energy drinks market is segmented on the basis of product, end user, and distribution channel. By product, the energy drinks market in Australia has been segmented into regular, sugar-free. According to the research, the regular energy drinks segment had the largest share in the energy drinks market in Australia. Based upon end user, the energy drinks market in Australia is categorized into teenagers, adults, others. On the basis of distribution channel, the energy drinks market in Australia has been segmented into supermarkets & hypermarkets, specialty stores, convenience stores, grocery stores, online retailing, others.
