## Abstracts

Diabetes is one of the top 10 causes of death globally. It causes distress, disability, and premature death. A diabetic person experiences high glucose level in their blood, either because the beta cells do not produce insulin (Type 1 diabetes) that is required for the breakdown of glucose, or because the insulin produced is not utilized properly (Type 2 diabetes). According to StrategyHelix, the global continuous glucose monitoring market is expected to increase by US\$ 2,751 million during 2021-2027, expanding at a CAGR of 14.6% during the forecast period. Rise in incidence of diabetes cases, government support initiatives to constrict the spread of diabetes and increasing obesity population are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for continuous glucose monitoring. The global continuous glucose monitoring market is segmented on the basis of component, demographics, end user, and region. Based on component, the global continuous glucose monitoring market is categorized into sensors, durables (receivers and transmitter). Globally, the sensors segment made up the largest share of the continuous glucose monitoring market. On the basis of demographics, the global continuous glucose monitoring market has been segmented into child population (<14 years), adult population (>14 years). The adult population (>14 years) segment captured the largest share of the market in 2020. By end user, the global continuous glucose monitoring market has been segmented into diagnostics/clinics, ICUs, home healthcare. Geographically, the global continuous glucose monitoring market is segmented into North America, Asia Pacific, Europe, Rest of the World (ROW).

The global continuous glucose monitoring market is highly competitive. Key companies profiled in the report include A. Menarini Diagnostics S.r.l., Abbott Laboratories, Dexcom Inc., Echo Therapeutics Inc., GlySens Incorporated, Insulet Corporation, LifeScan Inc., Medtronic MiniMed Inc, Roche Diabetes Care GmbH, Senseonics Holdings Inc.
