Abstracts

Hospital beds are beds specially designed for hospitalized patients or others in need of some form of health care. They are used to furnish extra comfort, relief, and assistance to patients at the time of availing healthcare services in various healthcare settings such as intensive care units (ICUs), emergency care settings, general wards, home care settings, and nursing homes. The global hospital beds market is poised to grow by US\$ 1,107 million during 2021-2027, progressing at a CAGR of 4.9% during the forecast period, according to data and analytics company StrategyHelix. Increasing incidences of chronic diseases, increase in the number of hospitals and ambulatory services worldwide, favorable patient demographics coupled with increase in patient admissions in healthcare settings, growing demand for hospital beds in low and middle-income countries are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for hospital beds. The global hospital beds market is segmented on the basis of product, type of care, application, end-user, and region. By product, the global hospital beds market has been segmented into full-electric hospital beds, semi-electric hospital beds, manual hospital beds. The full-electric hospital beds segment was the largest contributor to the global hospital beds market in 2020. Based upon type of care, the global hospital beds market is categorized into acute care, long-term care, psychiatric and bariatric care, others (maternity and rehabilitative care). According to the research, the acute care segment had the largest share in the global hospital beds market. On the basis of application, the global hospital beds market has been segmented into intensive care beds, non-intensive care beds. The non-intensive care beds segment held the largest revenue share in 2020. By end-user, the global hospital beds market has been segmented into hospitals, home healthcare settings, others. Geographically, the global hospital beds market is segmented into North America, Asia Pacific, Europe, Rest of the World (ROW).
