Abstracts

Plastics additives are chemicals which are used to polymerize, process or to achieve desired properties in end use of plastics. Their unique qualities - which include lightweight, corrosion-free, and easily molded into complex shapes without the need for assembly or fastening systems - makes them perfect for use in planes, trains, boats and cars. A study by StrategyHelix indicates that the global plastics additives market is expected to increase by US\$ 15,270 million from 2021 to 2027, garnering a CAGR of 4.9% during the forecast period. Growth of end-user industries such as building and construction, packaging, and automotive, increasing penetration of plastics in a variety of end-user industries are expected to boost the market growth in the coming years.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for plastics additives. The global plastics additives market is segmented on the basis of type, product, end user, and region. Based on type, the global plastics additives market is categorized into plasticizers, flame retardants, impact modifiers & processing aids, antioxidants, stabilizers. The plasticizers segment captured the largest share of the market in 2020. On the basis of product, the global plastics additives market has been segmented into plasticizers, flame retardants, heat stabilizers, fillers, impact modifiers, antioxidants, colorants, lubricants, light stabilizers, blowing agents, biocides, antistatic agents, others. By end user, the global plastics additives market has been segmented into automotive & transportation, electrical & electronics, building & construction, toys & recreational items, medical devices, others. In 2020, the automotive & transportation segment made up the largest share of revenue generated by the plastics additives market. In terms of geography, the global plastics additives market has been segmented into North America, Asia Pacific, Europe, Rest of the World (ROW).

The global plastics additives market is highly competitive. Top players covered in Global Plastics Additives Market Study are ADEKA Corporation, Albemarle Corporation, BASF

SE, Chemtura Corporation, Clariant AG, Eastman Chemical Company, Evonik Industries AG, ExxonMobil Chemical Company, Ferro Corporation, Grupa Azoty S.A., ICL Group Ltd., Lanxess AG, LG Chem Ltd., OQ Chemicals GmbH, Perstorp AB, The Dow Chemical Company.

Report Scope

Type: plasticizers, flame retardants, impact modifiers & processing aids, antioxidants, stabilizers

Product: plasticizers, flame retardants, heat stabilizers, fillers, impact modifiers, antioxidants, colorants, lubricants, light stabilizers, blowing agents, biocides, antistatic agents, others

End user: automotive & transportation, electrical & electronics, building & construction, toys & recreational items, medical devices, others

Region: North America, Asia Pacific, Europe, Rest of the World (ROW)

Years considered: this report covers the period 2017 to 2027

Key Benefits for Stakeholders

Get a comprehensive picture of the global plastics additives market

Pinpoint growth sectors and trends for investment

Contents

PART 1. INTRODUCTION

Scope of the study
Study period
Geographical scope
Research methodology

PART 2. PLASTICS ADDITIVES MARKET OVERVIEW

PART 3. MARKET BREAKDOWN BY TYPE

Plasticizers
Flame retardants
Impact modifiers & processing aids
Antioxidants
Stabilizers

PART 4. MARKET BREAKDOWN BY PRODUCT

Plasticizers
Flame retardants
Heat stabilizers
Fillers
Impact modifiers
Antioxidants
Colorants
Lubricants
Light stabilizers
Blowing agents
Biocides
Antistatic agents
Others

PART 5. MARKET BREAKDOWN BY END USER

Automotive & transportation
Electrical & electronics

Building & construction
Toys & recreational items
Medical devices
Others

PART 6. MARKET BREAKDOWN BY REGION

North America
Asia Pacific
Europe
Rest of the World (ROW)

PART 7. KEY COMPANIES

ADEKA Corporation
Albemarle Corporation
BASF SE
Chemtura Corporation
Clariant AG
Eastman Chemical Company
Evonik Industries AG
ExxonMobil Chemical Company
Ferro Corporation
Grupa Azoty S.A.
ICL Group Ltd.
Lanxess AG
LG Chem Ltd.
OQ Chemicals GmbH
Perstorp AB
The Dow Chemical Company
