Abstracts

A study by StrategyHelix indicates that the global security market is expected to increase by US\$ 31,982 million from 2021 to 2027, garnering a CAGR of 4.5% during the forecast period.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for security. The global security market is segmented on the basis of application, and region. Based on application, the global security market is categorized into commercial security, critical national infrastructure, public safety & security. The public safety & security segment held the largest share of the global security market in 2020 and is anticipated to hold its share during the forecast period. In terms of geography, the global security market has been segmented into North America, Asia Pacific, Europe, MEA, Latin America.

The commercial security market is further segmented into emergency management, and first responders. In 2020, the first responders segment made up the largest share of revenue generated by the security market. Furthermore, the critical national infrastructure market has been categorized into airports, land borders, mass transportation, oil & gas, marine ports, and power & utilities. Among these, the power & utilities segment was accounted for the highest revenue generator in 2020.

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the security market to help drive informed decision making for industry executives, policy makers, academic, and analysts.
