Abstracts

The zinc-bromine battery is a hybrid redox flow battery, because much of the energy is stored by plating zinc metal as a solid onto the anode plates in the electrochemical stack during charge. It is an attractive technology for both utility-energy storage and electric-vehicle applications. The global zinc-bromine flow battery market is poised to grow at a CAGR of around 21.7% over the analysis period of 2021 to 2027, according to StrategyHelix.

The report provides up-to-date market size data for period 2017-2020 and forecast to 2027 covering key market aspects like sales value for zinc-bromine flow battery. The global zinc-bromine flow battery market is segmented on the basis of application, and region. By application, the global zinc-bromine flow battery market has been segmented into power & utilities, commercial & industrial, residential, automotive, others. The power & utilities segment was the largest contributor to the global zinc-bromine flow battery market in 2020. In terms of geography, the global zinc-bromine flow battery market has been segmented into North America, Asia Pacific, Europe, Rest of the World (ROW).

Some of the leading companies operating in the market are CoverTel Power Pty Ltd, De Nora India Limited, Premium Power Ltd., Primus Power Corporation, Redflow Limited, The Sandia National Laboratories (SNL).

The report is an invaluable resource for companies and organizations active in this industry. It provides a cohesive picture of the zinc-bromine flow battery market to help drive informed decision making for industry executives, policy makers, academic, and analysts.

Report Scope

Application: power & utilities, commercial & industrial, residential, automotive, others

Region: North America, Asia Pacific, Europe, Rest of the World (ROW)

Years considered: this report covers the period 2017 to 2027

Key Benefits for Stakeholders
