## **Abstracts**

According to Statistics MRC, the Global Animal Healthcare Market is accounted for \$139.00 billion in 2020 and is expected to reach \$235.28 billion by 2028 growing at a CAGR of 6.8% during the forecast period. Increasing pet adoption for companionship among the elderly population, growing penetration of e-commerce platforms promoting online pharmacies, significant rise in demand for protein food, and increasing consumption of meat, milk and other animal byproducts are driving the market growth. However, high cost associated with animal healthcare drugs in low-middle income countries is hampering the market growth.

Animal healthcare is a role of preserving, guiding, and protecting animals from multiple diseases and implementing them vital veterinary services to improve their lifespan and yield. It focuses on effective animal health management through diagnosis and treatment of various diseases in animals. There are various governments and private corporations globally that are operating towards the improvement of the Animal Healthcare sector.

Based on the end user, the pharmacies & drug stores segment is anticipated to have lucrative growth during the forecast period, due to the detection and treatment of diseases, growing feed fabrication, the improved healthcare system for early diagnosis, and rising consciousness among consumers augment the demand for this segment.

By geography, North America is expected to have significant growth during the forecast

period, owing to the significant rise in the number of pet animal acceptance in the U.S., wide range of products available of animal care, advanced technologies including genomics, biotech, and artificial intelligence (AI), strict government rules and regulations, and ongoing projects.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025 and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic analysis: Drivers and Constraints, Product/Technology Analysis, Porter's five forces analysis, SWOT analysis, etc.

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

#### Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

##### Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

##### Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

##### Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
