Abstracts

According to Statistics MRC, the Global Anti-Aging Products and Therapies market is accounted for \$127.9 billion in 2015 and is expected to reach \$237.8 billion by 2022 growing at a CAGR of 9.2% from 2015 to 2022. Factors such as increasing demand for anti-aging hair care products, rise in urbanization and per capita income, advancement in cosmetic technologies, Laser/Energy-Based Cosmetic Treatments and aging population worldwide are driving the market growth. Stringent regulatory environment and safety concerns related to anti-aging products & devices are expected to constrain the market. Emerging economies, new product development and innovations will provide an opportunity for the market to grow.

The skin lightening market is expected to grow with highest CAGR for the forecast period. The LED therapy devices segment occupies the largest share followed by lasabrasion devices market in devices segment. The product market accounts for the largest share of the overall anti-aging product and services market. North America is the leading Market for anti-aging market due to high awareness about aging. Asia Pacific market is expected to grow further followed by Rest of The Word.
