Abstracts

According to Statistics MRC, the Global Aquaculture market is accounted for \$35.24 billion in 2020 and is expected to reach \$71.25 billion by 2028 growing at a CAGR of 9.2% during the forecast period. Increasing seafood trade propelling demand, rising income levels leading to faster growth in fish consumption and continuous decline of natural feedstock are the major factors driving the market growth. However, rise in the adoption of veganism is restraining the market growth.

Aquaculture is defined as the activity of fish farming. This procedure of farming involves interventions in rearing process to boost production, such as regular stocking, feeding, and protection from predators. Aquaculture farming involves around 580 species that are currently farmed all over the world, representing a wealth of genetic diversity both within and among species.

Based on production, the small-scale segment is estimated to have a lucrative growth due to the growing demand for aqua products for their protein-rich content, small-scale farming is adopted by developing regions such as Africa, South America and Asia Pacific. Furthermore, the governments of these countries are taking various initiatives to support aqua farming in these regions, as it is one of the major sources of employment. By geography, Asia Pacific is going to have high growth during forecast period due to rise in demand for advanced and latest aquaculture products that help in producing more quality output with available land for aqua farming and enhance the efficiency of aquaculture operations.

Some of the key players profiled in the Aquaculture Market include AKVA Group, Aquaculture Equipment Ltd, Aquaculture of Texas, Inc, Aquaculture System Technologies, LLC., Asakua, CPI Equipment Inc., Frea Aquaculture Solutions, Lifeguard Aquatics, Luxsol, Pentair PLC, Pioneer Group, Reef Industries, Inc., Tan International Ltd and Xylem Inc.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free

customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
