Abstracts

According to Stratistics MRC, the Global Automated Feeding Systems Market is accounted for $4.64 billion in 2017 and is expected to reach $10.69 billion by 2026 growing at a CAGR of 9.7% from 2017 to 2026. Growth in dairy farms and the rising consumption of meat and milk products are boosting factors for the growth of the market. However, lack of trained professionals, shortage of standardization of feeding equipment and feeding lines and affordability of high setup cost by dairy farmers are the factors restraining the market growth.

Automated feeding systems are the modern-day systems to feed domestic animals. These systems are majorly used in livestock feeding management. The operation is usually carried out by automated robots and other advanced machinery which go near the livestock and their little ones to feed them with their daily meal, milk and other foodstuffs. Automatic feeding systems save time and cost carrying out a variety of tasks that includes storing different feed components individually, to mixing the feed and even distributing it onto the feeding table.

Amongst Type, Rail-Guided Feeding Systems segment held significant market share during the forecast period. The growth of this segment is attributed to its durability and low maintenance cost. In Rail-Guided systems a distinction is generally made between distributor wagons and feed mixer wagons. By geography, Asia Pacific dominated the market due to growing awareness among consumers, rising demand for meat products and rapid economic growth in the region.

Some of the key players in Automated Feeding Systems market include Delaval, Fullwood Packo, Afimilk, Sum-It Computer Systems, Pellon Group Oy, Davisway, GEA Group AG, Boumatic LLC, Trioliet, Lely Holding, Dairymaster (US), VDL Agrotech, Lely

What our report offers:

Market share assessments for the regional and country level segments

Strategic recommendations for the new entrants

Market forecasts for a minimum of 9 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

+44 20 8123 2220
info@marketpublishers.com

Strategic analysis: Drivers and Constraints, Product/Technology Analysis, Porter’s five forces analysis, SWOT analysis etc.

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the clients interest (Note: Depends of feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
