Abstracts

According to Statistics MRC, the Global Automated Pest Monitoring System Market is expected to grow at a CAGR of 8.6% during the forecast period. Rising focus on reducing manual intervention in fields, increasing the focus of manufacturers to expand their presence in various regions and growing end-user inclination toward innovative systems in the agriculture sector are some of the factors propelling the growth of the market. However, the growing threat from alternative pest control methods is hampering the market.

An automated pest monitoring system monitors all kinds of insects, which can be lured into insect traps. They are applicable for real-time monitoring of pest populace in the agriculture division. These systems aid farmers to exercise smart pest traps to explore and predict pest populace expansion in fields. By geography, North America is leading the market during the forecast period owing to the growing acceptance of technically advanced solutions in the agriculture division, the industry research analysts have approximated that countries in America will be the major provider to the expansion of the pest monitoring system market throughout the predicted period.

Some of the key players profiled in the Automated Pest Monitoring System include SemiosBio Technologies Inc., EFOS informacijske resitve d.o.o., Anticimex AB, DTN, LLC, DunavNET and FaunaPhotonics.

WHAT OUR REPORT OFFERS:

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 9 years of all the mentioned segments, and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements
