Abstracts

According to Statistics MRC, the Global Automotive Cups and Glass Holder Market is accounted for \$11,562.20 million in 2020 and is expected to reach \$23,208.04 million by 2028 growing at a CAGR of 9.1% during the forecast period. Factors such as growing beverage consumption, rising disposable income of people, and increasing vehicle production are driving the growth of the market. However, increasing production cost is hampering the growth of the market.

Automotive cups and glass holders are designed to keep cups, bottles or any such products inside vehicles. Automobiles have started providing various automotive cup holders which have gained customers' interest in buying those vehicles.

Based on the orientation, the flexible cup and glass holders segment is anticipated to expand at a rapid pace during the forecast period owing to its increasing popularity due to the convenience offered by it. By geography, Asia Pacific is going to have high growth during the forecast period which can be attributed to the increasing demand for automobiles from the economies like India and China, where population is growing at a considerable rate.

Some of the key players profiled in the Automotive Cups and Glass Holder Market include AutoTrust Gold, Rugged Ridge, Vertically Driven Products, Rampage, APA/URO Parts, Bestek, Dorman, RT Off-Road, GenuineXL, Smittybilt, Febi, and Crown.
