According to Statistics MRC, the Global Automotive Transmission market is accounted for \$123.65 million in 2015 and is expected to reach \$195.26 million by 2022 growing at a CAGR of 6.7%. Rising vehicular production across the globe had created humungous amount of demand for automotive transmission equipment. Whereas, demand for fuel-efficient vehicles, low carbon emitting vehicles and superior driving experience had escalated the market. However, cost effectiveness of manual transmission comparative to automatic transmission is restraining the market growth.

Dual Clutch Transmissions (DCT) & Continuously Variable Transmission (CVT) technologies segment is anticipated to be the fastest growing segment owing to the shift in demand to performance intensive and fuel efficient vehicles. Increasing use of passenger vehicles and increasing sales had estimated it as fastest growing segment. However, Asia Pacific is witnessing robust growth in market due to favorable government regulations and low cost labor.

Some of the key players of the Automotive Transmission market include Aisin Seiki Co., Ltd., Allison Transmission Inc., AVL, BorgWarner Inc., Continental AG, Eaton Corporation PLC, FEV GmbH, Getrag, GKN PLC, IAV GmbH, Jatco Ltd., Magna International Inc., Ricardo Plc and ZF Friedrichshafen AG.
