“According to Statistics MRC, the Global Autonomous Underwater Vehicles Market is accounted for \$190.56 million in 2015 and is expected to reach \$505.23 million by 2022 growing at a CAGR of 14.9% during the forecast period”. Increased adoption of autonomous underwater vehicles for military applications and raise in the offshore oil & gas production are some of the key factors favouring the market growth. However, strict government regulations are hampering the market. Advanced navigation provides ample of opportunities for the market growth.

North America captured the largest market share of the AUV market attributed to high adoption rate of these vehicles in the U.S. for military & defense applications. Asia Pacific is anticipated to grow at the fastest CAGR due to high GDP growth rate in emerging countries such as China and India, generating ample of opportunities for AUV manufacturers in the region.

Some of the key players in Autonomous Underwater Vehicles market include Boston Engineering, Oceanserver Technology, Inc., Bluefin Robotics Corporation, Kongsberg Maritime AS, SAAB Group, Atlas Elektronik Group GmbH, Teledyne Gavia ehf., Fugro N.V., ECA Group and International Submarine Engineering, Ltd.
