Abstracts

According to Statistics MRC, the Global Aviation Cargo Management Systems Market is expected to grow at a CAGR of 13.3% during the forecast period 2016 to 2023. Factors like dedicated freight operators and aircrafts and growing adoption of electronic Air Waybill (e-AWB) are driving the market growth. However, evolving security threats and divergent regulations will hamper the market growth. Growing innovation in API platform, increasing adoption of RFID technologies and Integration of self-service technologies are few prevailing trends.

The warehouse and operation management system segment dominated the market during the forecast period because it helps in transforming the conventional warehouse operations by establishing a connected logistics framework. Asia Pacific is expected to be the largest market owing to the intercontinental trade and booming Chinese economy is increasingly adopting support mechanisms such as the cargo management systems to maintain the pace of trade

Some of the key players in Global Aviation Cargo Management Systems Market are Accenture, Hexaware Technologies, Kale Logistics, NIIT Technologies, AKRB, CHAMP, Mercator, Sabre Airline Solutions and Wipro.
