Abstracts

According to Statistics MRC, the Global Bioabsorbable Stents Market is accounted for \$0.35 billion in 2015 and is expected to reach \$3.56 billion by 2022 growing at a CAGR of 39.2% during the forecast period. Factors such as expanding geriatric population, increased usage rate of these stents and rise in cardiovascular surgeries are boosting the market growth. However, strict regulations and huge cost of these stents are hampering the market.

By absorption rate, slow absorbable stents segment dominated the global market with largest share owing to the longer duration of drug discharge within the arteries. By region, North America accounted for largest market share. However, Asia Pacific is anticipated to witness highest CAGR, due to rising awareness in the region.

Some of the key players in Bioabsorbable Stents market include Arterial Remodeling Technology SA, Boston Scientific Corporation, Medtronic, Abbott Laboratories, B. Braun Melsungen AG, Kyoto Medical Planning Co., Ltd., Amaranth Medical, Inc., Stentys SA, Elixir Medical Corporation, Arterius Limited, REVA Medical, Inc., Xenogenics Corporation, Microport Scientific Corporation, Tepha, Inc., C.
