Abstracts

According to Statistics MRC, the Global Boil-in Bags market is expected to grow at a CAGR of 8.3% during the forecast period. Rise in higher demand for convenience foods and shifting customer lifestyle patterns mostly in metropolitan setup are some of the key factors fueling the market growth. However, increasing awareness about the usage of eco friendly products is hindering the growth of the market.

Boil-in Bags are a type of packaged food products in which bagged food is heated in boiling water. Plastic bags can be solid and resistant for holding frozen foods otherwise, bags can be leaky to allow boiling water into the bag. In addition, these bags are broadly used in different parts of the world by many chefs for the purpose of cooking and it is easy to use, flexible and affordable.

Amongst material type, Polyethylene segment dominated the global market and is expected to maintain its dominance over the forecast period owing to easy accessibility and temperature resistance properties.

By geography, North America will be the major revenue contributor to the Boil-in Bags market throughout the forecast period owing to increasing number of single-person households across the world and increasing preference for packaged & frozen foods by customers in this region.

Some of the key players profiled in the Boil-in Bags Market include Shenyang Dongya Composite Packaging & Color printing factory, Shenzhen Dingqi Pack Co. Limited, Synpac Limited, Shenzhen Ken Hung Hing Plastic Products Co.
