Abstracts

According to Statistics MRC, the Global Bottled Water Products Market is accounted for \$201.40 billion in 2017 and is expected to reach \$550.24 billion by 2026 growing at a CAGR of 11.8% from 2017 to 2026. Increased health awareness, technological advancements in user-friendly packaging and changing consumer lifestyle are fuelling the market growth. However, stringent regulations regarding packaging of water and bottled water standards are hampering the market.

By Packaging Type, PET bottles have significant growth in the market. PET packaging is undergoing several technological innovations to increase impermeability and eliminate the risk of harmful substances entering into containers. The growth of PET bottles has led to extensive supply of bottled water, through wide network organized markets as well as several grocery and club stores.

Based on geography, Asia Pacific is expected to have a considerable growth in the market. The growth is mainly driven by increasing health consciousness, rising number of water borne diseases, increase in consumption of bottled water, growing manufacturing units in this region.

Some of the key players in the Bottled Water Products market are Nestle Waters, Acqua Minerale San Benedetto, Voss of Norway ASA, Bisleri International, Mountain Valley Spring Water, Pepsico Inc., Unicer-Bebidas SA and Cg Roxane Llc.
