Abstracts

According to Statistics MRC, the Global Brushless DC Motors Market is accounted for \$5.59 billion in 2017 and expected to grow at a CAGR of 10.8% to reach \$14.11 billion by 2026. Increasing usage of brushless DC motors in wide range of applications in various industries, increase in demand for electric vehicles from developing countries, rising demand for HVAC applications and growing robotics technology are some of the key factors influencing the market growth. However, factors such as high price and lack of adequate skilled personnel are restricting the market growth.

Brushless DC Motors are also called as electronically commutated motors or synchronous DC motors powered by a dc-power source. These types of motors are highly efficient in producing large amount of torque over a vast speed range. In brushless motors, permanent magnets rotate around a fixed armature and overcome the problem of connecting current to the armature. They known for smooth operation, and holding torque when stationary. It has high efficiency, more durable, reliability, enhanced speed torque characteristics, outstanding controllability and is widely used in many applications. The BLDC motor has power-saving advantages relative to other motor types.

By Speed, the 2,001-10,000 RPM segment registered significant growth owing to increasing demand for highly reliable, quite, highly energy efficient, and compact equipment in medical devices. By End User, the consumer electronics segment held considerable market growth and it's expected to continue its dominance in future. The benefits of brushless DC motors such as reduced costs, high-energy efficiency, and are environment-friendliness, will boost its acceptance in the consumer durables sector that constitutes home appliances and electronic gadgets such as blenders, refrigerators, and dryers.

By Geography, Asia Pacific acquired the largest market share growth by North America due to growing demand for increasing demand for consumer electronics and automotive product in China, India, Taiwan, South Korea, and Japan during the forecast period.

Some of the key players in Global Brushless DC Motors market are Yellowstone Landscape, Weed Man USA, U.S. Lawns, TruGreen, ScottsMiracle-Gro, Ruppert Landscape, MARINA, Main scape, Lawn Doctor, Gothic Landscape, F.A. Bartlett Tree Expert, Denison Landscaping, Davey Tree Expert, Clintar Landscape Management Services, Chapel Valley and Bright View Landscapes.
