Abstracts

According to Statistics MRC, Building Automation Market is estimated at \$35.9 billion in 2015 and is expected to reach \$67.1 billion by 2022 growing at a CAGR of 9.6% from 2015 to 2022. Strict government initiatives, growing demand for energy efficient systems & solutions, and increasing cost saving needs of the building owners have played a key role in boosting the market growth. However, some of the factors restraining the market growth include limited availability of skillful experts and lack of consciousness about installation costs.

Among products, security & access controls segment commanded the major share in building automation market which can be attributed to the increasing concerns about energy conservation. Asia Pacific is anticipated to witness high growth led by countries such as Japan, China, India and South Korea. Germany, France, Spain, and U.K. are expected to boost the European building automation market in the near future.

The key players of this market include, Siemens Ag, Schneider Electric, Honeywell International, Inc., Emerson Electric Co., ABB, Bosch Security Systems, Johnson Controls, Inc., United Technologies Corp., Legrand S.A., Hubbell Inc., Ingersoll-Rand PLC, Cisco systems Inc, Royal Philips Electronics N.V. and Daintree Networks Inc.
