Abstracts

According to Statistics MRC, the Global Cancer Biomarkers market is estimated at \$9215.32 million in 2015 and is expected to reach \$20958.63 million by 2022 growing at a CAGR of 12.5% from 2015 to 2022. Technological improvements, huge investment flow for Research and Development and increasing usage in drug development and drug delivery are the factors driving the market growth. On the other hand, Sample collection and storage issue and poor reimbursement policies are hampering the market. Growing awareness for personalized medication is the opportunity for the market growth.

North America captured huge share in terms of revenue owing to raising awareness towards cancer diagnostics. However, Asia Pacific is anticipated to be the fastest growing region with highest CAGR during forecast period, because of increasing demand for non invasive diagnosis in this region. The diagnostics segment holds largest share in the market, followed by drug discovery and development.

Some of the key players in the market include Abbott Laboratories, Becton Dickinson and Company, Correllogic Systems, Inc., Agilent Technologies, Biomerieux S.A., Astellas Pharma US Inc., Roche Diagnostics Corp., Astex Pharmaceuticals, Agendia Bv, Diadexus, Inc., Ambrilia Biopharma, CuraGen, Gen-Probe Inc, Beckman Coulter, Inc., Clariant, Inc, Biocurex Inc., and Aureon Laboratories, Inc.,
