According to Statistics MRC, the Global Commercial Antennas Market accounted for \$XX million in 2016 and is expected to reach \$XX million by 2022 growing at a CAGR of XX% from 2016 to 2022. Continues technological advancements and significant transformation in communication systems are the key factors favouring the commercial antennas market. Furthermore, R&D investments by leading players to provide new commercialized maritime antennas, modernization programs related to defense antennas, rapidly growing end use industries and new technological advancements are the factors supporting the growth of commercial antennas market. However, operation in complex terrain & underwater environments, instabilities in antenna construction are restraining the market.

North American and European countries have leading markets, due to continuous R&D investments by key players and robust demand from countries such as U.S, Germany, France, and U.K. Asia Pacific is expected to grasp major revenue share in commercial antennas market due to swiftly increasing urbanization along with rising disposable income in developing countries such as China and India. Emerging countries in APAC are attracting investments and expected to witness expansions from top players.

Some of the prominent vendors in the global commercial antennas market are Accel Networks, BAE Systems, Cobham plc., Exelis Inc., Laird PLC, Morad, Motorola Inc., MP Antenna, Qinetiq Group PLC, Raytheon Company, Shakespeare Company LLC, Southwest Antennas, TESSCO, Thales S.A. and Winegard Co.
