## Abstracts

Statistics MRC, are pleased to announce the latest publication of Global Construction & Mining Equipment Market. Rising construction & mining activities, increasing demand for technologically advanced solutions and growing demand for advanced infrastructure in emerging nations are some of the key factors fueling the market growth. However, health and environmental issues and fluctuating oil prices are hampering the market.

Construction equipment is used in residential and non-residential buildings, such as roads, tunnels, bridges, and others. Mining equipment is used for underground mining, drilling, and mineral processing, and surface mining. The decrease in manpower and eradication of requirement of explosions and bursting is possible using mining equipment. Technological advancements in construction and mining equipment benefit business owners to quality projects in specified time. Asia Pacific is anticipated to grow at a significant CAGR due to major future projects and growing amount of government projects such as airports, sewer systems, and renewable energy.

Some of the key players in Construction & Mining Equipment Market include Zoomlion Heavy Industry Science and Technology Co., Ltd., Volvo Group, Terex Corporation, Liebherr Group, Komatsu Ltd., Joy Global Inc., Hitachi Construction Machinery Co., Ltd., CNH Industrial, Caterpillar Inc., Atlas Copco AB, Metso Corporation, Doosan Group and Sandvik.
