According to Stratistics MRC, the Global Deepwater Hydrocarbon Exploration market is estimated at \$XX million in 2015 and is expected to reach \$XX million by 2022 growing at a CAGR of XX% from 2015 to 2022. Rising awareness and demand for opposite regulatory framework are projected to support the market in the next upcoming years. However rising demand for renewable and sustainable energy resources are the restraints of the market. Latest methods for discovering other unconventional hydrocarbon deepwater sources with increased R & D activities may create new opportunities for the market players.

Deepwater hydrocarbon exploration market is expected to witness steady growth in the upcoming years due to the increasing demand for conventional hydrocarbons (such as crude oil and natural gas) especially in emerging markets of Asia Pacific and Latin America. Geographically North America holds the largest market. Majority of deep sea activities in last few years have been identified in Gulf of Mexico and North Sea Regions.

Some of the key players in the market are PetroBras, Oceaneering International Inc., Brazilian Petroleum Corporation, Transocean Ltd, Trico Marine Services Inc, and Schlumberger Ltd.
