Abstracts

According to Statistics MRC, the Global Dental Practice Management Software market is accounted for \$1.91 billion in 2020 and is expected to reach \$4.83 billion by 2028 growing at a CAGR of 12.3% during the forecast period. Some of the key factors propelling the market growth include growing geriatric inhabitants, improved healthcare infrastructure, rising digitization process in dental practices, and growing demand for advanced health care. However, shortage of skilled IT professionals is restraining the market growth.

This software is both managerial as well as clinical tool which is designed to assist dentists and practice management professionals to run their practices economically and effectively. This software is used to collect, handle, store, manage, and retrieve large amount of data, dental professionals, staff, and patient's data and generates report for patient. It aids in maintaining high excellence standard of patient care, easy to use, is saves time, and regularizes the data.

By deployment mode, the web based segment is expected to grow at the significant rate during the forecast period, due to increased flexibility and convenience offered by such solutions prominent to effective clinical data management and reduced costs, reasonable price, higher security, instant software updates, and unlimited storage capacity.

On the basis of geography, Asia Pacific region is estimated to have considerable market

growth during the forecast period, owing to the increasing savings by healthcare IT companies in the region, rising number of dental clinics and hospitals, growing espousal of diverse digital technologies in dental services in developing countries, and rising geriatric population which requires special dental services.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025 and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic analysis: Drivers and Constraints, Product/Technology Analysis, Porter's five forces analysis, SWOT analysis, etc.

Strategic recommendations in key business segments based on the market

estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
