Abstracts

According to Statistics MRC, the Global Diabetic Food Market is accounted for \$8.47 billion in 2016 and is expected to reach \$11.96 billion by 2022 growing at a CAGR of 5.9% from 2016 to 2022. Some of the key drivers impacting the demand for the market include, growing usage of artificial sweeteners, hectic lifestyle and increasing demand for junk food. Moreover, increasing awareness towards diabetics and health consciousness among infantile generation has positively affected the market growth. Easy availability of diabetic food and surging discretionary income will further spurs the market size over the forecast period. However, huge capital investments will restrict the Diabetic Food market.

By products, confectionery segment is estimated to dominate the diabetic food market with highest market share. North American region commanded the market with largest share, followed by Europe and Asia Pacific. Moreover, increasing demand for diabetic foods in U.S. will provide a significant growth opportunity.
