Abstracts

According to Statistics MRC, the Global Dialyzer market is estimated at \$XX million in 2016 and is expected to reach \$XX million by 2022 growing at a CAGR of XX% from 2015 to 2022. Low acceptance of patients for kidney transplantation, increase in aging population, growth opportunities in emerging markets and technological improvements in products are some of the key drivers influencing the market growth. However, low consumer awareness regarding kidney diseases and decrease in medical reimbursements to dialysis centers are hindering the market growth.

North America accounted the largest share in the market due to rapid acceptance rate of highly developed technologies, well-resourced dialysis centers/hospitals, rising number of diabetes and hypertension in patients and availability of experienced nephrologists. In addition, Asia pacific is anticipated to grow the fastest during the forecast period. Owing to upcoming government initiatives to develop new dialysis facilities, rising awareness about new dialysis treatment modalities and increasing number of independent dialysis centers.

Some of the key players in the market include Chengdu Weilisheng Biotech Co., Ltd., Guangzhou Widgery Biology Technology Co., Ltd., Jihua Medical Apparatus And Instruments Co., Ltd, ATLANTIC BIOMEDICAL Pvt. Ltd, Foshan KangYu of medical equipment Co.Ltd, M S Medicals Pvt.
