## Abstracts

According to Statistics MRC, the Global Dietary Fibers market is estimated at \$2.73 billion in 2016 and is expected to reach \$5.89 billion by 2022 growing at a CAGR of 13.7% from 2016 to 2022. Growing demand for fiber supplements to overcome nutrition deficiency and increasing health consciousness among the people are the drivers propelling the market growth. Moreover change in life style requires more fiber nutrients to balance the diet is another prominent factor driving the market growth. However stringent regulatory approvals are hindering the market growth.

Insoluble fiber in product segment is anticipated to move with a highest CAGR during forecast period owing to maintenance of balanced PH by consuming these kinds of fibers. Fruits and vegetables in source segment accounted for the largest market share in 2015, cereals and grains segment is expected to show healthy growth rate during forecast period. North America accounted for the highest market share as compared to other regions. The Asia Pacific region is expected to grow at a higher CAGR and is anticipated to account for the highest market share during forecast period owing to increase in disposable incomes.

Some of the key players in the market include Archer Daniels Midland Company (ADM), Cargill, Incorporated, Danisco, E. I.
