Abstracts

According to Statistics MRC, the Global Disposable Medical Device sensors market is projected to grow at a Compound Annual Growth Rate of 9.87%. Factors such as growing healthcare expenditure, the rising incidences of hospital acquired infections, improved investments by venture capital firms in this sector and government support for R&D activities are driving the market growth. However, factors such as strict regulatory approval procedures coupled with irregular reimbursement for these medical devices are hampering the market.

Emerging economies such as the Asia-Pacific will provide significant opportunities for various market players. Presence of skilled labor and technological advancements are tw

of the major factors, which fuel the market growth in the Asia-Pacific region. In 2015, accounting for more than 60% of the share, the biosensors segment commanded disposable medical device sensors market. Conversely, the image sensors segment is anticipated to grow at the highest CAGR during the forecast period, due to the growing demand for CMOS image sensors and the launch of cost effective and technologically advanced products.

Some of the key players in the market are Covidien, Freescale Semiconductor, Inc., GE Healthcare, Given Imaging, Honeywell International, Inc., Medtronic PLC, Olympus Corporation, Omnivision Technologies Inc., Philips Healthcare and Sensirion AG.
