## Abstracts

According to Statistics MRC, the Global Dried Soup market is growing at a CAGR of 4.6% during the forecast period. Some of the major factors favouring the market include instant and convenience food trends, increasing demand for nutritional needs, and increase in adoption for gluten-free soup products with various flavours. Moreover, advancements in soup packaging and demand for dehydrated soups are also fuelling the market. However, increasing health hazards on consuming high content of salt and corn is inhibiting the market growth.

On the basis of product, dehydrated dried soups are commercial instant soups canned, or treated by freezing. Dehydrated dried soup is prepared by adding water and heating the product for a little time. As the dehydrated soups are quick and easy to cook they remained quite attractive and hence quickly gain the attention of customers as they contain less acid than fruits, vegetables typically need to be dried longer until they are hard but easy to break.

By Geography, Europe is subjected to remain the largest market by dominating other regions due to increasing preference of customers on consumption of dried soups and growing demand of restaurants.

Some of the key players in Dried Soup Market include Acecook Vietnam, Associated British Foods, B&G Foods, Baxters Food Group, Campbell Soup, Subo Foods, Frontier Soups, General Mills, Hain Celestial, House Foods Group, Kraft Heinz, Kroger, Nestlé, Nissin Foods, NK Hurst Company, Unilever, and Premier Foods.
