## **Abstracts**

According to Statistics MRC, the Global Elevators Flat Cables Market is accounted for \$2480.4 million in 2024 and is expected to reach \$3598.9 million by 2030 growing at a CAGR of 6.4% during the forecast period. Elevator flat cables are specialty electrical cables used to supply elevator systems with power and control signals. These cables are distinguished by their flexible, flat design, which enables them to fit into confined locations without sacrificing electrical performance or longevity. They are employed to ensure the seamless functioning of the complete elevator system, provide control signals to the control panel, and supply power to the elevator motor. These cables are usually constructed with many insulated conductors to avoid electrical interference. They are also frequently produced with improved durability to endure the severe circumstances of mechanical stress, temperature changes, and vertical movement.

Market Dynamics:

Driver:

Urbanization and Construction Boom

Urbanization and the construction boom are boosting demand for elevators and related infrastructure, which has a direct influence on the elevator flat cable industry. Effective and long-lasting elevator systems are becoming more and more necessary as cities grow and the number of high-rise structures rises. Flat cables are an essential part of

contemporary building projects since they provide the seamless operation of these systems. The market for elevator flat cables is anticipated to continue expanding due to the rising trends of urbanization and vertical development.

Restraint:

#### High Initial Costs

The market expansion is severely hampered by the high initial prices of, especially in areas where expenses are a concern. These costs, which are a result of sophisticated materials, unique designs, and strict safety regulations, deter small and medium-sized builders from implementing them. The financial strain also has an impact on pricing tactics, making it difficult for producers to strike a balance between profitability and competitive price, which further impedes market growth.

Opportunity:

#### Technological Advancements

Technological advancements are revolutionizing the market by enhancing efficiency, durability, and safety. Innovations in materials, such as high-flexibility and flame-retardant compounds, ensure cables withstand continuous motion and harsh environments. Smart elevator systems demand advanced flat cables with improved signal transmission for IoT integration, real-time monitoring, and predictive maintenance. Miniaturization and lightweight designs optimize space and reduce energy consumption, aligning with sustainability goals.

Threat:

#### Material Shortages and Supply Chain Issues

Material shortages and supply chain disruptions have a substantial impact on the market, delaying production and increasing costs. Manufacturing output is impacted by the limited supply of essential raw materials, and timely delivery is hampered by logistical constraints. These problems cause unmet demand by interfering with building and infrastructure development project deadlines. As a result, businesses find it difficult to adjust, which might lower the quality and consistency of their products. As a result, market growth slows.

### Covid-19 Impact:

The COVID-19 pandemic disrupted the Elevators Flat Cables Market due to halted construction activities, supply chain disruptions, and delayed infrastructure projects. Reduced demand for elevators in commercial spaces further impacted the market. However, the post-pandemic recovery, driven by resumed construction, urbanization, and safety upgrades in buildings, has created renewed demand. The focus on touch less and smart elevator systems has also spurred innovation in flat cable technology to meet evolving needs.

The commercial elevators segment is expected to be the largest during the forecast period

The commercial elevators segment is expected to be the largest during the forecast period as these cables are essential for efficient power and data transmission in elevator systems, ensuring smooth operation and enhanced safety. Rising urbanization, smart building initiatives amplify the need for advanced elevator systems, consequently boosting flat cable requirements. Additionally, the focus on energy-efficient and durable cable solutions aligns with sustainability trends, further propelling market growth in commercial elevator applications.

The control cables segment is expected to have the highest CAGR during the forecast period

The control cables segment is expected to have the highest CAGR during the forecast period because these cables offer dependability, flexibility, and longevity, allowing for seamless operation under a variety of circumstances. They improve the performance and safety of contemporary elevators by supporting sophisticated control systems. Elevators with superior control cables are becoming more and more in demand as a result of urbanization and smart building trends. Innovations in fire-resistant and lightweight cable technology increase their influence even more.

### Region with largest share:

North America is anticipated to hold the largest market share during the forecast period because smart elevator technologies have advanced. The need for long-lasting, high-performance flat cables is fueled by an emphasis on safety regulations and energy efficiency. Strong infrastructure development and renovation initiatives in the area contribute to the market's expansion. Innovations in technology, including cables with

integrated communication and control functions, are also crucial for increasing market potential and operating efficiency.

Region with highest CAGR:

Asia Pacific is anticipated to witness the highest CAGR over the forecast period due to rising investments in infrastructure, particularly in countries like China and India, are fueling demand for elevators, and boosting flat cable usage. Additionally, advancements in cable technology for enhanced safety, durability, and efficiency are further propelling market growth. The increasing focus on energy-efficient systems and stringent safety regulations is also creating opportunities for innovative flat cable solutions in the region.

Key players in the market

Some of the key players in Elevators Flat Cables market include Brugg Cables, Elesun Cable, Flexon Cables, Fujikura Ltd., GenFlex Cables, Hengtong Group, Hitachi Cable, Kone Corporation, Nexans, Norden Communication, Otis Elevator Company, Prysmian Group, Rolliflex Cables, Schindler Group, Shentai Cable, SSG Cable Group, Ultracab Wires and Wurtec.

Key Developments:

In August 2024, Singtel and Hitachi, Ltd. signed a Memorandum of Understanding (MOU) to collaborate on next-generation data centers and GPU Cloud in Japan and potentially the wider Asia Pacific region under the lead of Singtel's Digital InfraCo unit.

In July 2023, Hitachi, Ltd. started the development of digital infrastructure and demonstration of transport digital transformation of Vietnam Post, a government-run company in Vietnam, in preparation for digitalization with a focus on postal services throughout the Socialist Republic of Vietnam.

In May 2022, Hitachi, Ltd. announced its collaboration with state-owned company Vietnam Post<sup>1</sup> and consumer finance organization VietCredit Finance Company in the Socialist Republic of Vietnam to deploy new financial services nationwide.

Types Covered:

Power Cables

Control Cables

Communication Cables

Materials Covered:

Copper

Aluminum

Other Materials

Voltages Covered:

Low Voltage (Below 1kV)

Medium Voltage (1kV #- #36kV)

High Voltage (Above 36kV)

Applications Covered:

Residential Elevators

Commercial Elevators

Industrial Elevators

Other Applications

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

South Korea

Rest of Asia Pacific

South America

Argentina

Brazil

Chile

Rest of South America

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

Rest of Middle East & Africa

What our report offers:

- Market share assessments for the regional and country-level segments
- Strategic recommendations for the new entrants
- Covers Market data for the years 2022, 2023, 2024, 2026, and 2030
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances

## Contents

### **1 EXECUTIVE SUMMARY**

### **2 PREFACE**

- 2.1 Abstract
- 2.2 Stake Holders
- 2.3 Research Scope
- 2.4 Research Methodology
  - 2.4.1 Data Mining
  - 2.4.2 Data Analysis
  - 2.4.3 Data Validation
  - 2.4.4 Research Approach
- 2.5 Research Sources
  - 2.5.1 Primary Research Sources
  - 2.5.2 Secondary Research Sources
  - 2.5.3 Assumptions

### **3 MARKET TREND ANALYSIS**

- 3.1 Introduction
- 3.2 Drivers
- 3.3 Restraints
- 3.4 Opportunities
- 3.5 Threats
- 3.6 Application Analysis
- 3.7 Emerging Markets
- 3.8 Impact of Covid-19

### **4 PORTERS FIVE FORCE ANALYSIS**

- 4.1 Bargaining power of suppliers
- 4.2 Bargaining power of buyers
- 4.3 Threat of substitutes
- 4.4 Threat of new entrants
- 4.5 Competitive rivalry

### **5 GLOBAL ELEVATORS FLAT CABLES MARKET, BY TYPE**

- 5.1 Introduction
- 5.2 Power Cables
- 5.3 Control Cables
- 5.4 Communication Cables

## **6 GLOBAL ELEVATORS FLAT CABLES MARKET, BY MATERIAL**

- 6.1 Introduction
- 6.2 Copper
- 6.3 Aluminum
- 6.4 Other Materials

## **7 GLOBAL ELEVATORS FLAT CABLES MARKET, BY VOLTAGE**

- 7.1 Introduction
- 7.2 Low Voltage (Below 1kV)
- 7.3 Medium Voltage (1kV - 36kV)
- 7.4 High Voltage (Above 36kV)

## **8 GLOBAL ELEVATORS FLAT CABLES MARKET, BY APPLICATION**

- 8.1 Introduction
- 8.2 Residential Elevators
- 8.3 Commercial Elevators
- 8.4 Industrial Elevators
- 8.5 Other Applications

## **9 GLOBAL ELEVATORS FLAT CABLES MARKET, BY GEOGRAPHY**

- 9.1 Introduction
- 9.2 North America
  - 9.2.1 US
  - 9.2.2 Canada
  - 9.2.3 Mexico
- 9.3 Europe
  - 9.3.1 Germany
  - 9.3.2 UK
  - 9.3.3 Italy

- 9.3.4 France
- 9.3.5 Spain
- 9.3.6 Rest of Europe
- 9.4 Asia Pacific
  - 9.4.1 Japan
  - 9.4.2 China
  - 9.4.3 India
  - 9.4.4 Australia
  - 9.4.5 New Zealand
  - 9.4.6 South Korea
  - 9.4.7 Rest of Asia Pacific
- 9.5 South America
  - 9.5.1 Argentina
  - 9.5.2 Brazil
  - 9.5.3 Chile
  - 9.5.4 Rest of South America
- 9.6 Middle East & Africa
  - 9.6.1 Saudi Arabia
  - 9.6.2 UAE
  - 9.6.3 Qatar
  - 9.6.4 South Africa
  - 9.6.5 Rest of Middle East & Africa

## **10 KEY DEVELOPMENTS**

- 10.1 Agreements, Partnerships, Collaborations and Joint Ventures
- 10.2 Acquisitions & Mergers
- 10.3 New Product Launch
- 10.4 Expansions
- 10.5 Other Key Strategies

## **11 COMPANY PROFILING**

- 11.1 Brugg Cables
- 11.2 Elesun Cable
- 11.3 Flexon Cables
- 11.4 Fujikura Ltd.
- 11.5 GenFlex Cables
- 11.6 Hengtong Group

- 11.7 Hitachi Cable
- 11.8 Kone Corporation
- 11.9 Nexans
- 11.10 Norden Communication
- 11.11 Otis Elevator Company
- 11.12 Prysmian Group
- 11.13 Rolliflex Cables
- 11.14 Schindler Group
- 11.15 Shentai Cable
- 11.16 SSG Cable Group
- 11.17 Ultracab Wires
- 11.18 Wurtec
