Abstracts

According to Statistics MRC, the Global Expandable Microsphere Market is accounted for \$2,236.14 million in 2020 and is expected to reach \$3,349.39 million by 2028 growing at a CAGR of 5.2% during the forecast period. The extensive demand from the automotive industry, extensive use as lightweight filler and blowing agent are driving the market growth. However, the Negative effect of halogenated hydrocarbons on the environment is hampering the growth of the market.

Expandable microspheres are microscopic spheres that contain a thermoplastic shell encapsulating a low boiling point liquid hydrocarbon. On heating to a temperature high adequate to soften the thermoplastic shell, the growing pressure of the hydrocarbon will origin the microsphere to grow.

Based on the end-user, the construction segment is going to have lucrative growth during the forecast period. The growing usage of elastic microspheres in numerous building materials such as flooring material, synthetic wood, paint, putty/sealing material, wallpaper, and lightweight clay is certainly distressing the progress of the global market.

By geography, Asia Pacific is going to have high growth during the forecast period, due to the urbanization and industrialization in the rising economies such as China, India, and Singapore. Furthermore, advancement in technologies that are being developed across the region is further driving the growth of this market. The different key players in the Asia Pacific are concentrating on advanced technological expansions to support the growth of the market for Expandable Microspheres in the region.

Some of the key players profiled in the Expandable Microsphere Market include

AkzoNobel, Bublun GmbH, Chase Corporation, Dainichiseika Color and Chemicals, Hunan Farida Technology Co Ltd, kcd GmbH, Kureha, Matsumoto Yushi-Seiyaku, Sekisui Chemical, The Kish Company and Tramaco GmbH.

Types Covered:

Dry

Wet

Products Covered:

Lightweight Filler

Blowing Agents

Applications Covered:

Auto Accessories

Coating

Daily Necessities

Elastomeric Cool

Food Packaging

Printing Inks

Roof Coatings

Shoe Soles

End Users Covered:

Automotive

Buildings and Infrastructure

Construction

Consumer Goods

Food and Beverages

Sports & Leisure

Transportation

Distributions Channels Covered:

Online

Offline

Regions Covered:

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025 and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
