Abstracts

According to Statistics MRC, the Global Fertilizers market is accounted for \$XX billion in 2015 and is expected to reach \$XX billion by 2022 growing at a CAGR of XX% from 2015 to 2022. Growing awareness of fertilizer in emerging regions, increasing demand for biofuels crops, rising crop prices which may lead to the usage of fertilizers to increase output and upcoming organic agricultural market are some of the factors driving the fertilizers market. However, high cost of fertilizers is hindering the market growth. Moreover, stringent government regulations are the challenging factor for fertilizers market growth over the forecast period.

Asia pacific is anticipated to be the fastest growing market during the forecast period. The countries such as India, China and other emerging countries are involved in many agricultural activities due to high demand of fertilizers. Moreover, North America followed by Europe is estimated to generate a high revenue for the fertilizers market over the forecast period.

Some of the key players in the market include Uralkali PJSC, Sinofert Holdings Ltd., Koch Industries Inc., EuroChem Group AG, Coromandel International Ltd., Bunge Ltd., Yara International Asa, The Mosaic Company, Potash Corp. Of Saskatchewan Inc., Israel Chemicals Ltd., CVR Partners, Lp., CF Industries Holdings Inc., Agrium Inc., JSC Belaruskali and OCP S.A.
