Abstracts

According to Statistics MRC, the Global Filters Market is accounted for \$62.99 billion in 2017 and is expected to reach \$130.19 billion by 2026 growing at a CAGR of 8.4% during the forecast period. Growing awareness about clean emission and government favourable policies is one of the major factors driving the market growth. However, patented products may hinder the growth of the market.

Filtration is a critical component required for removal of solid particulates and contaminants by increasing the service life of machines. By Product, Air filters segment registered steady share during the forecast period due to growing air pollution and increasing growth in the automotive industry. The air filters are devices that are multi-layered in order to filter the impure air. Air filters eliminate unpleasant odor, and removes harmful exhaust fumes. By geography, Asia Pacific provides potential growth opportunities due to industrialization in addition to the economic growth in this region.

Some of the key players in Filters market include Clarcor Incorporated, BRITA GmbH, Parker-Hannifin Corporation, Pall Corporation, Mahle GmbH, Denso Corporation, Donaldson Company, Affinia Group Intermediate Holdings, Cummins and MANN+HUMMEL.
