Abstracts

According to Statistics MRC, the Global Food Shelf Life Testing Market is growing at a CAGR of 8.8% during the forecast period. Some of the key factors influencing the market growth include growth in demand for packaged and convenience foods, increasing microbial contamination in food products and increased demand in the foods and beverages industry. However, lack of harmonization of shelf-life regulations is hindering the market growth.

Shelf-life denotes that particular time during which a product remains effective and free from deterioration, and thus saleable without becoming unfit for use, consumption, or sale. Shelf-life testing is done in a laboratory to determine the food products expectant shelf-life within which the product should be consumed. This test also makes the product microbiologically safe. Shelf-life testing reduces the risk of product recalls.

Amongst application, Dietary supplement is a manufactured product intended to supplement the diet when taken by mouth as a pill, capsule, tablet, or liquid. A supplement can provide nutrients either extracted from food sources or synthetic, individually or in combination, in order to increase the quantity of their consumption. By Geography, the growth in the Asia Pacific region can be attributed to factors such as growth in the number of shelf-life testing laboratories in India and China, the rise in the number of incidences of bacterial infectious diseases in the region, and growing adoption of convenience and packaged food in the region.

Some of the key players in global Food Shelf Life Testing market are ALS Limited, SGS SA, Intertek, AgriFood Technology, Merieux, Premier Analytical Services, RJ Hill Laboratories, TV Nord Group, AsureQuality, SCS Global, Eurofins, Bureau Veritas, Microchem Lab Services (PTY) and Symbio Laboratories.

What our report offers:

Market share assessments for the regional and country level segments

Strategic recommendations for the new entrants

Market forecasts for a minimum of 9 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic analysis: Drivers and Constraints, Product/Technology Analysis, Porter's five forces analysis, SWOT analysis etc.

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the clients interest (Note: Depends of feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
