## Abstracts

According to Statistics MRC, the Global Frozen Bakery Products Market is accounted for \$38,319.36 million in 2020 and is expected to reach \$62,003.25 million by 2028 growing at a CAGR of 6.2% during the forecast period. Growing adoption of convenience foods, increase in consumption of frozen bakery products and extended shelf lives of products are driving the market growth. However, high production costs and increase in preference for conventional and freshly baked products are hampering the growth of the market.

Frozen bakery products are conventional bakery products that are frozen to preserve the nutrients and avoid spoilage caused by microbial growth. These products usually do not contain any harmful preservatives and rich in nutrition and available in variety of tastes and maintains flavors of the original product. Frozen bakery food products are as per name they are prepared, frozen, and packed so that the consumers only need to heat and assemble them before consumption.

Based on the product, the pizza & cold pizza crust segment is going to have lucrative growth during the forecast period owing to increase in demand for the products in the retail and commercial sectors. Due to the increasing in trend over vegan diet among customers, many of the manufacturers now strategize on coming up with pizza crust accordingly.

By geography, Europe is going to have high growth during the forecast period as in the European zone, developed markets limit further development and producers are forced to search for new business prospects in emerging economies. In Europe, the preference for conventional, freshly baked goods, the fragmented business situation and the uncertainty of raw material prices serve as constraints on the development of

the frozen baking products market. UK is the main contributor to the European market's growth. The consumption of frozen bakery items is high mostly in European countries.

Some of the key players profiled in the Frozen Bakery Products Market include General Mills Inc., Kellogg Company, Associated British Foods PLC, Europastry S.A., Conagra Brands, Inc., Cargill, Inc, Grupo Bimbo, Flower Foods Inc., Dawn Foods Products Inc., Vandemoortele, TreeHouse Foods, Inc., Aryzta AG, Cole's Quality Food Inc, Nestle SA and Tyson Foods.
