Abstracts

According to Statistics MRC, the Global Fruits and Vegetables Crop Protection market is estimated at 2.3 million tons in 2015 and is expected to grow at a CAGR of 6.8% during the forecast period 2015 to 2022. The factors influencing the market growth include growing demand for food security and vegetarian foods, changes in farming practices & technology and reduction in arable land. Whereas factors such as low per capita use of pesticides in several regions and growing environmental concerns are inhibiting the market. However, rapid growth in biopesticides market is major opportunity for the market. Some of the challenges faced by the market include evolution of biotechnology, stringent regulations and ban imposed by regulatory authorities.

Governments in various countries took measures aimed at promoting the development and usage of biopesticides due to their superior safety, low toxicity, and higher efficacy in controlling pests. Cereals & grains is the key market segment for crop protection chemicals which is commanded by North America. The Asia Pacific and Latin America emerged as the fastest growing markets globally. In the Asia Pacific region, India is hub to the largest number of vegetarians worldwide, which has been a major factor in continual demand for fruits and vegetables.

Some of the key players in the fruits and vegetables crop protection market include Adama Agricultural Solutions, Bayer CropScience, IsAgro, Dow AgroSciences, DuPont, BASF, Nufarm, Valent Biosciences, Monsanto Company, Syngenta International, Cheminova A/S, Natural Industries, Arysta LifeScience, IsAgro Spa, and Nippon Soda Co. Ltd.
