## Abstracts

According to Statistics MRC, the Global Gelatin Market is expected to grow at a CAGR of 6.5% during the forecast period. Rising consumer preferences towards high-quality food products, growing demand for gelatin from cosmetics and personal care are some of the key propelling factors for the market growth. However, regulatory restrictions and concern over diffusion of pathogenic vectors through gelatine are some of the factors inhibiting the market growth.

Gelatin is a delicate, colourless, water soluble, transparent material with high molecular weight. It is a rich supply of protein derived from collagen present in animals. Gelatin is sticky semi-solid gel. Edible gelatin is the most general form existing that does not contain additives or preservatives. Non-edible gelatins are used mainly in cosmetics and photography.

Amongst application, food and beverage segment dominated the market due to growing demand for gelatine in cakes, cottage cheese, ice creams, whipped creams and cheese. Europe region is expected to register the highest market growth rate during the forecast period owing to the presence of dominant manufacturers and United Kingdom, Germany, France, and Belgium being the primary markets for gelatin consumption are propelling the growth of this region.

Some of the key players in the Gelatin Market include Lonza Group, GELITA, Catalent Pharma Solutions, Weishardt Group, Rousselot, Eversource Gelatin, Nitta, Gelnex, Foodchem® International Corporation, Sterling, ROXLOR, PB Gelatins, Trobas Gelatine, Italgelatine (S.P.A) and Lapi Gelatine Spa.
