Abstracts

According to Statistics MRC, the Global Hydrogen Peroxide for Disinfection/Sterilization Market is accounted for \$1,045.40 million in 2020 and is expected to reach \$1,730.14 million by 2028 growing at a CAGR of 6.5% during the forecast period. Rise in disposable income, increased purchasing capabilities of users, and growing concerns about personal care are the major factors propelling the market growth. However, adverse effect of hydrogen peroxide is hampering the market growth.

Hydrogen peroxide is the compound formed as a result of the chemical reaction of oxygen and water. In its pure form, it is pale blue liquid that is slightly more viscous than water. Hydrogen peroxide is generally unstable, and it decomposes slowly in the presence of light. Being unstable, it is typically stored with a stabilizer in a weakly acidic solution. Aqueous hydrogen peroxide solution differs from other pure substances owing to the effects of hydrogen bonding between water and hydrogen peroxide molecules.

Based on end user, the healthcare segment is estimated to have a lucrative growth due to its increased usage for dental or wound disinfection, contact lens cleaning, and surgical instruments disinfection. Solutions containing a higher concentration of hydrogen peroxide are used as sterilants for specially designed heat-sensitive machines and medical devices.

By geography, Europe is going to have a lucrative growth during the forecast period due to its applications in food & beverages, horticulture, healthcare, and other end-user industries. Apart from this, continuous research and development has led to the

widespread adoption of hydrogen peroxide. The regional market has been experiencing high growth in the production of hydrogen peroxide with the expansion of the manufacturing units of a few major players such as Solvay S.A. in the region.

Some of the key players profiled in the Hydrogen Peroxide for Disinfection/Sterilization Market include Akzo Nobel N.V, Arkema Group, BASF SE, Ecolab, Evonik Industries AG, KemiraOyj, Maroon Group, Merck KGaA, Mitsubishi Gas Chemical Company, Inc., and Solvay S.A.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as

per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
