Abstracts

According to Statistics MRC, the Global Injector Nozzle Market is accounted for \$5.33 billion in 2020 and is expected to reach \$10.01 billion by 2028 growing at a CAGR of 8.2% during the forecast period. Stringent emission regulations, rising growth in the automobile industry and the necessity for fuel-efficient vehicles are the factors driving the market growth. However, the increasing popularity of electric vehicles is hampering the growth of the market.

An injector nozzle is used to inject the right proportion of fuel and air inside the combustion chamber that is necessary for the engine to run at maximum efficiency so that it improves the mixing of fuel with air after acquiring a signal from electronic sensors in the vehicle and the fuel is injected in the form of spray. Injector nozzles are an important part of combustion engine powered vehicles, and functions to inject fuel such as gasoline or diesel into engine cylinders at high pressure to initiate combustion. As it improves fuel efficiency and optimizes vehicle performance a large share of all vehicles being manufactured globally deploying injector nozzles.

Based on the fuel type, the diesel segment is going to have lucrative growth during the forecast period as diesel engines have high thermal energy; they offer better fuel efficiency in comparison to gasoline. Diesel contains about 15% more energy than gasoline. Even though diesel engines are heavier, the overall efficiency of a diesel engine is greater than that of a petrol engine owing to the aforementioned reasons. Diesel engine technology improvements have managed to decrease engine noise, and exhaust emissions with improved fuel efficiency; this has led to consumers preferring vehicles with diesel engines and manufacturers focusing on the production of diesel engines.

By geography, North America is going to have high growth during the forecast period as North America is the fastest-growing market for injector nozzle, as the demand for

domestic vehicles increased and witnessed positive year-on-year growth and the automotive industry in the North American region is anticipated to grow in the years ahead, which is expected to further fuel the growth of the injector nozzle market.

Some of the key players profiled in the Injector Nozzle Market include Delphi Automotive Plc, Continental AG, Transonic Combustion Inc., Keihin Corporation, Infineon Technologies AG, Magneti Marelli S.p.A, Robert Bosch GmbH, Denso Corporation, Uci International Inc., Westport Fuel Systems, Gb Remanufacturing Inc, Magneti Marelli Powertrain India Private Limited, Holley Performance Products Inc. and Edelbrock Llc.

Technologies Covered:

Quick Fuel Injection

New Fuel Injection System

Gasoline Port Fuel Injector

Diesel Direct Injection

Gasoline Direct Injection

Fuel Types Covered:

Gasoline

Diesel

Nozzle Types Covered:

Pintle Type

Hole Type

Two Stage Injection Type

Injector Types Covered:

Top-Feed

Side-Feed

Throttle Body Injector

Applications Covered:

Passenger Cars

Commercial Vehicles

Regions Covered:

North America

US

Canada

Mexico

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
