Abstracts

Statistics MRC, are pleased to announce the latest publication of Global Insulin Biosimilars market. Growing pervasiveness of type 1 diabetes and ongoing approvals by the government authorities are nurturing the market growth. Some of the factors such as growing population exposures, technological developments and favorable medical repayment scenario in developed countries are poised to favour the market growth. However, patent protection rights of insulin and strong vengeance from the key manufacturers are some of the restraints limiting the market.

Expansion of clinically verified insulin biosimilar will cover the road for new entrants. The approaching patent expiration of insulin drugs will unlock new opportunities for the development of biosimilars and manufacturing companies. As cost is high due to strict observance requirements, prices of biosimilar drugs are anticipated to decrease as compared to branded drugs.

North America led the insulin biosimilars market due to rising demand for insulin in the region. Europe is anticipated to account for second largest share and Asia Pacific is expected to grow at a fastest rate during the forecast period. APAC players are competing on the basis of price and have pool of patients affected by diabetes, thus fueling the market growth.

Some of the key players in this market are Wockhardt Limited, Ypsomed AG, Pfizer Inc., Mylan N.V., Boehringer Ingelheim GmbH, NOVO Nordisk A/S, Sanofi S.A., Merck & Co., Biocon Limited and Eli Lilly & Co.

Biosimilars Types Covered:

Rapid-Acting Biosimilars

Long-Acting Biosimilars

Premixed Biosimilars

Disease Indications Covered:

Type I Diabetes

Type II Diabetes

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

U.K.

Italy

France

Spain

Rest of Europe

Asia Pacific

What our report offers:

Insulin Biosimilars - Global Market Outlook (2017-2023)

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements
