Abstracts

The Global Intelligent Emergency Response System and Infrastructure market is projected to reach \$110.38 billion by 2022 growing at a CAGR of 7.34% during the forecast period. Some of the key drivers for the market growth include rising consciousness about the significance of security, replacement of existing architecture with new emergency systems, rise in mining, exploration and hazardous industry. However, the paucity of interoperability between products and scarcity of technical personnel are some of the major factors inhibiting the growth of Intelligent Emergency Response System and Infrastructure market.

In 2014, North America accounted for the largest market share of more than 30% with United States dominating the region, followed by Europe. Video surveillance was the leading market segment, while broadcast systems represented the fastest growing segment of global intelligent emergency response system and infrastructure market. Perimeter Intrusion Detection market is also anticipated to show high growth during the forecast period. In applications perspective, defense segment lead the market in 2014, and this segment is projected to exhibit the highest volume growth through forecast period. The major components for the market are dominated by the sensors accounting for around 40% share succeeded by detectors and programmable logic controller (PLC).

The key players in the global intelligent emergency response system and infrastructure market are Siemens Ag, Alcatel-Lucent, Bosch, United Technologies Corporation, Phoenix IT Group, Everbridge Inc., ATI Systems, Enera International AB, Honeywell and Micron Technologies

Applications Covered:

Industrial

Energy and power

Mining

Government

defense

Oil and Gas

Healthcare

Education

Residential

What our report offers:

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 8 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements
