According to Stratistics MRC, the Global IT Asset Disposition (ITAD) Market is accounted for \$13.44 billion in 2020 and is expected to reach \$28.60 billion by 2028 growing at a CAGR of 9.9% during the forecast period. The growing implementation of regulatory compliances and environment safety and surging adoption of new technologies are the factors driving the market growth. However, the low awareness and high service costs are hampering the market growth.

IT asset disposition, commonly known as ITAD, can be defined as the process of reusing or recycling IT equipment. The ITAD process involves data destruction, reusable parts harvesting as well as repair of equipment. ITAD vendors specialize in the process of streamlining disposition of IT assets, while minimizing costs and maximizing recouping of losses.

Based on the end user, the information technology (IT) & telecom segment is going to have lucrative growth during the forecast period due to the rising requirement of advanced technology are reducing the lifespan of IT assets equipment in the IT industry is creating the need for IT asset disposition service.

By geography, Asia Pacific is going to have high growth during the forecast period due to the formulation of regulatory compliances for the proper disposal of IT assets and to safeguard the environment from the risky components of retired IT assets.
