Abstracts

According to Statistics MRC, the Global Low Foam Surfactant Market is accounted for \$15.68 billion in 2020 and is expected to reach \$26.54 billion by 2028 growing at a CAGR of 6.8% during the forecast period. Increasing need for greener and sustainable surfactants, rising urbanization, changing lifestyle of the people and growing awareness regarding hygiene & skin care are the major factors propelling the market growth. However, stringent government regulation on the use of toxic chemicals is hampering the market growth.

Surfactants are the surface active agents and generally used in cleaning detergents. The surfactants accelerate the activity on the surface that helps in removing the dirt that is trapped on the surface. The low foam surfactants are of three types, namely, non-ionic, amphoteric, and cationic. Low foaming surfactants are produced by managing the degree of alkoxylation process or by adjusting the alkyl chain of the alcohol. The low foaming surfactants prove to better durability and sustainability. These properties are countering to accelerate the expansion of the low foaming surfactants all over the globe.

Based on material type, the non-ionic segment is going to have a lucrative growth during the forecast period owing to the extensive use of non-ionic surfactants in a broad range of applications, including household detergents, hard surface cleaners, and industrial processes. Non-ionic surfactants can be used in a variety of temperatures without compromising on its functionality. Thus, the demand for these surfactants is huge across the globe. Moreover, governments undertaking green initiatives are likely to support the market growth of this segment.

By geography, Asia Pacific is going to have a lucrative growth during the forecast period due to the rising consumer demand, increasing population, and adoption of advanced

manufacturing technology by the players in the region. Other than this several initiatives taken by the governments in the countries such as India to promote hygiene among the people is another vital factor expected to drive the global low foam surfactants market.

Some of the key players profiled in the Low Foam Surfactant Market include AkzoNobel N.V, BASF SE, Clariant AG, Evonik Industries AG, Croda International plc, Stepan Company, Huntsman Corporation, Kao Corporation, Galaxy Surfactants, Oxiteno SA, Dowdupont, Solvay SA, Nufarm, Enaspol A.S., Eoc Group, Air Products and Chemicals, Helena Chemical Company, Unger Fabrikker A.S., and Wilbur-Ellis Company.

Material Types Covered:

Amphoteric

Cationic

Non-ionic

Applications Covered:

Agrochemicals

Cement

Commercial Machine Dishwashing

Detergents and Cleaning Agents

Food and Dairy Process Cleaners

Home & Personal Care

Industrial & Institutional Cleaning

Metal Cleaning and Metal Working Fluids

Oil Field Chemicals

Paints

Pulp & Paper

Textiles

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
